### Hot Dog Lady on a bum trip

Responding to my [post](#) about the Hot Dog Man, BB reader [Steve Portigal](#) says: "In the Hot Dog Man short film, an interviewee makes reference to an educational film about the dangers of LSD where a woman hallucinates that her hot dog has a face." The Hot Dog Lady can be seen in [LSD A Go Go](#), a mash-up film of anti-acid propaganda and other vintage materials. You can watch a clip of the famous Hot Dog Lady on the LSD A Go Go Web site.
